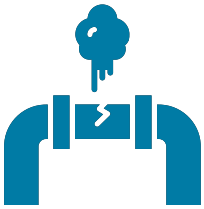
Emergency repairs



What is an emergency repair?

An emergency repair is something that is dangerous or could cause serious damage.

Examples of an emergency repair

- major leaks (water, gas or oil)
- fire or structural damage
- no heating during very cold weather
- no electricity
- anything that could cause injury or serious damage

What to do

- Contact your Housing Officer or ICM immediately
- If it is outside normal hours, use the emergency contact number you were given

We aim to make emergency issues safe within 24 hours.
